and Life**

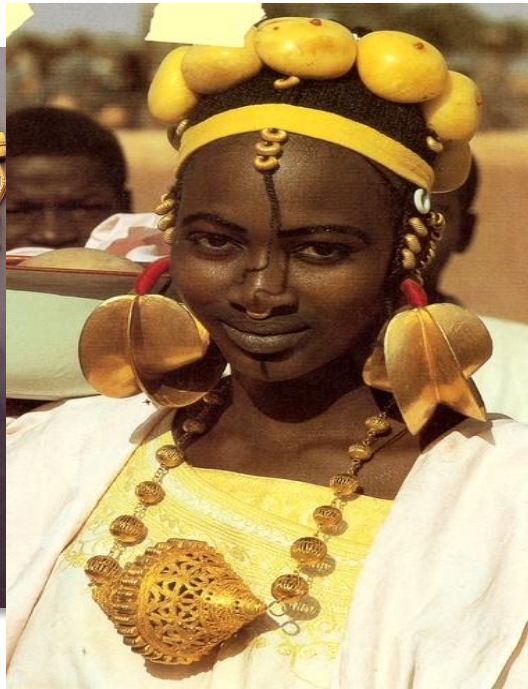

An Illustrated Talk by Herbert M. (Skip) Cole

Monday, August 3, 2026

4:30 – 6:00 pm

At the Art Gallery at Monarch Dunes

Much European and American gold originated in the Gold Coast of Africa in a country now called Ghana where it is still used for spectacular royal regalia and sculpture. Gold was also found in Senegal where wonderful filigree jewelry is made. Varieties of precious gold arts and manufacturing technologies will be explored in this session.
